Maureen: Here are some additions. Note that we added some TSCA information as there are ongoing activities already. Let us know if you need anything else. We left this in redline and added to Tina's version.

Here are CSS updates. I may have botched your ordering/formatting. So feel free to move things.

For John and Lynn, I'm also attaching the last one from 6 mos ago. Generally these have a few general ORD items at the top (e.g., advanced notification) and then OCSPP-specific items. The last we try to focus to OCSPP, but things like Flint and GKM are often included since they are big ticket items.

It is always a fine line between things they obviously know about in OCSPP, and things we want to make sure they are aware of that we've been engaged in. I did not add PFCs, although we could easily. I'm flexible on things – I generally run the next version by Bob and he highlights what he will focus on.

Thanks for your help!

Hi all –

Attached is my first draft memo for Bob's meeting next Tuesday with Louise. I've included some comments specific to CSS and OSP – please review and let me know if you want other topics or if you have any updates to the ones here.

I'm out of the office starting tomorrow and so will revise and share with Bob on Monday.

Thanks!

Maureen
